2. MANAGING PLUGIN & CONTACT DETAILS

👉 This document relates to BrandCrock plugin for **Automatic Currency Switch | Customer Login Based** and contains important information about installation and usage of the plugin. At the same time, this document serves as performance and functional specification for features available in the plugin.

👉 If you face any issue or problems on installing or testing our plugin please contact our [Support team](#).

👉 Please don't change or modify the plugin without having any experience or understanding.

2.1 About this Plugin

Automatic currency switch is possible on your shop through this Currency Switch plugin. Currency Switch plugin automatically switches currency when customers select their country at the time of login. You can activate the currency switch option by activating the multi currency option on Shopware backend. Whenever a customer login to your shop then this plugin automatically switches currency if currency is different from default currency.

Note: If currency of a customer's country is different from your default shop currency then you have to first add that currency in your shop.

3. PLUGIN INSTALLATION

The initial step is the **Installation** of the plugin. The following screenshots will explain you in detail about the installation process,

Step 1: Login to shop backend, navigate to **Extensions** **My extensions**.

4. PLUGIN FUNCTIONALITY

Step 1: Before customer login, the default currency is displayed in the shop frontend as shown below

The screenshot shows the top navigation bar with a search bar, user and cart icons, and a currency dropdown menu set to '€ Euro' with a value of '€0.00*'. A red box highlights the currency dropdown, and a red arrow points to it. Below the navigation bar is a breadcrumb trail: Home > Clothing > Free time & electronics. The main content area is divided into two columns. The left column is for existing customers, with a 'Login' button and a list of login advantages. The right column is for new customers, with fields for salutation, first and last names, new email address, and password. Below these is the 'Your address' section with fields for street address, postal code, city, and country. A 'Continue' button is at the bottom right.

Figure 6

Step 2: After the plugin activation, whenever a customer login to the shop then this plugin automatically switches the currency based on the customer's login country. (**Example:** If a customer belongs to USA country, currency switches automatically as shown in the below image)
