# 2. MANAGING PLUGIN & CONTACT DETAILS.

☞ This document relates to the BrandCrock plugin for **360 Degree Image Viewer** and contains important information about the installation and usage of the plugin. At the same time, this document serves as performance and functional specification for features available in the plugin.

☞ If you face any issue or problems on installing or testing our plugin, please contact our **Support team**.

☞ Please do not change or modify the plugin without having any experience or understanding.

### 2.1 About this Plugin

**360 Degree Image Viewer** plugin helps end-customers to view a rotatable 360-degree view of any product on the online store. Quick and easy setup gives the immersive panorama images for the product in your website. The product detail page gives an option to view the product image through each dimension. The product can be auto rotated to view the full 360 degree view of it. Additionally, a magnifying lens shows the magnified view of the chosen part.

## 3. PLUGIN INSTALLATION

The initial step is the **Installation** of the plugin. The following screenshots will explain you in detail about the installation process,

**Step 1:** Login to shop backend, navigate to **Extensions > My extensions**.

**Figure 1**

**Step 2:** Click the Upload **extension** to browse the **BrandCrock360ImageViewer.zip** file, choose the file and then click **Open** to upload the plugin.

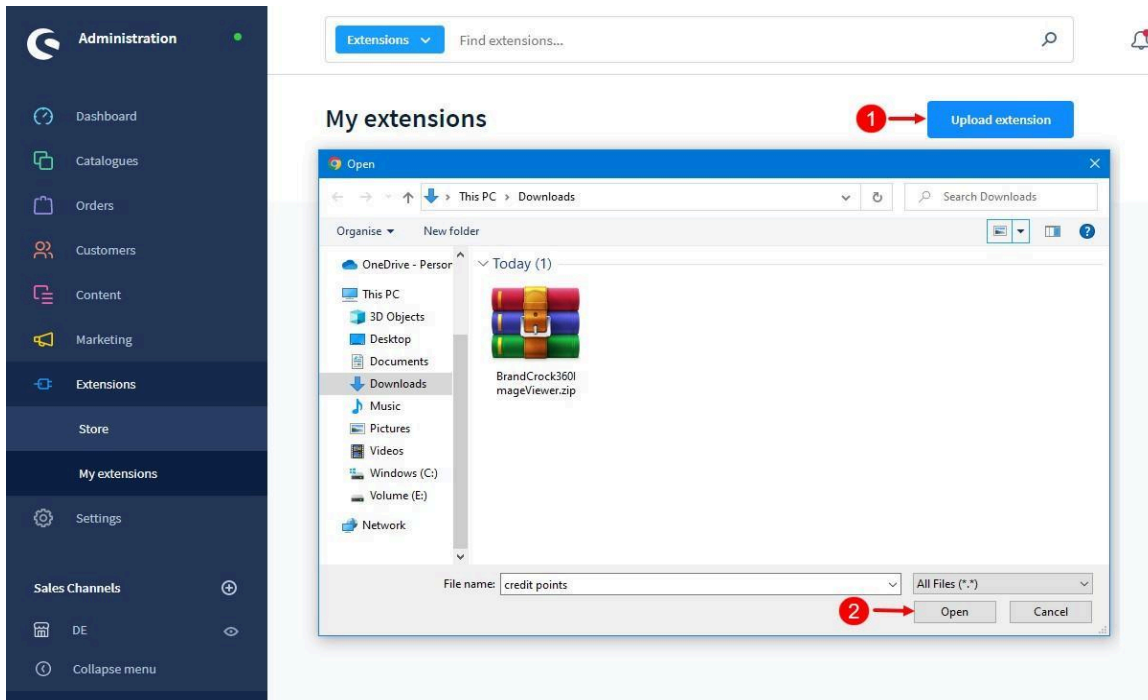

**Figure 2**

**Step 3:** After uploading the **360 degree image viewer** plugin, it will be listed as shown below

**Figure 3**

**Step 4:** Install the **360 degree image viewer** plugin by clicking **Install app**.

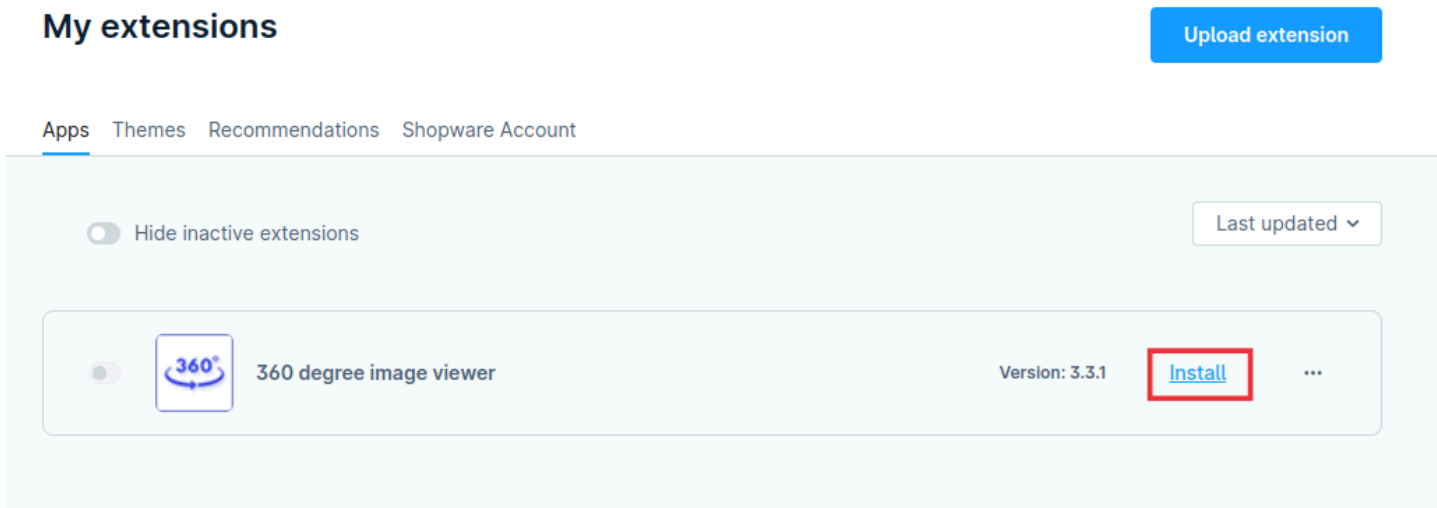

**Figure 4**

**Step 5:** Next, click enable  switch to activate the **360 degree image viewer plugin.**

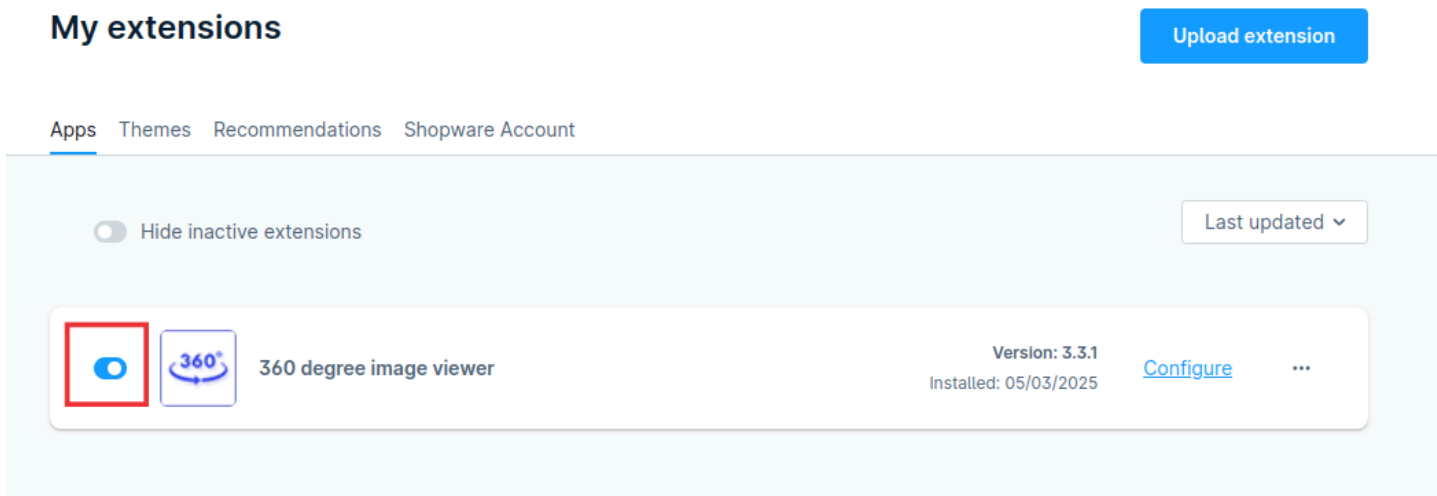

**Figure 5**

# 4. PLUGIN CONFIGURATION

After successful installation of the **360 degree image viewer** plugin, Configuration looks below,

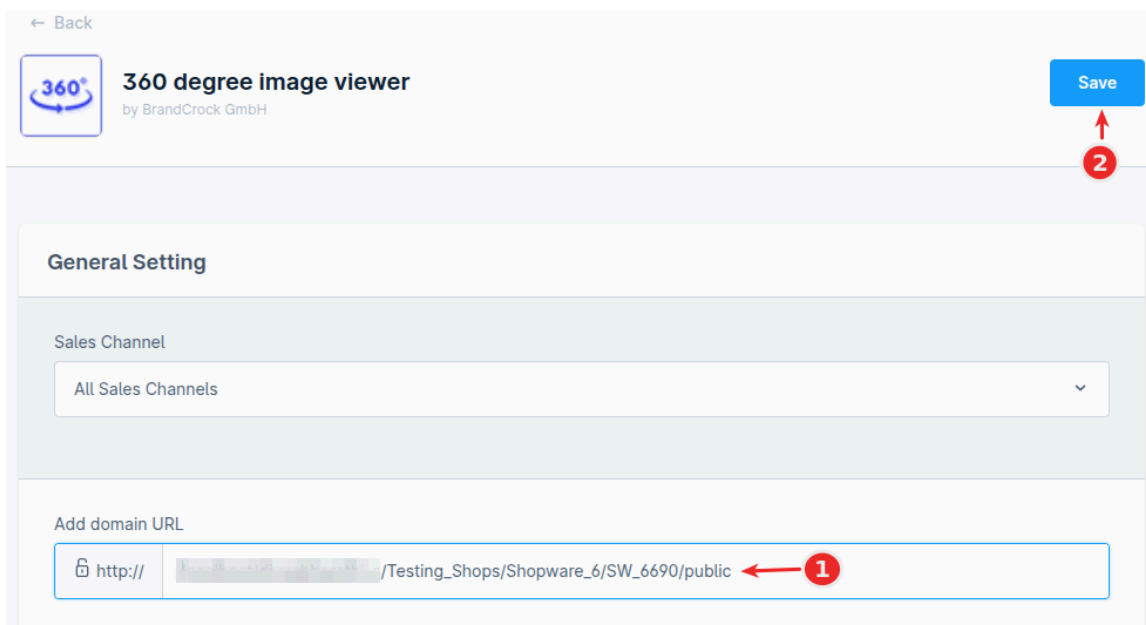

**Figure 6**

**Step 1 :** Enter/Copy the shop URL until the public and **save** the configuration.

**Step 2:** Navigate to **Catalogue > Products,** choose a product and click **Edit** under the product as shown below

**Figure 7**

**Step 3 :** In the edit page, go to **Specifications** > **Custom fields** and move down to **360 Degree Images Tab** as shown

<p align="center"><strong><span style="color:blue">Figure 8</span></strong></p>
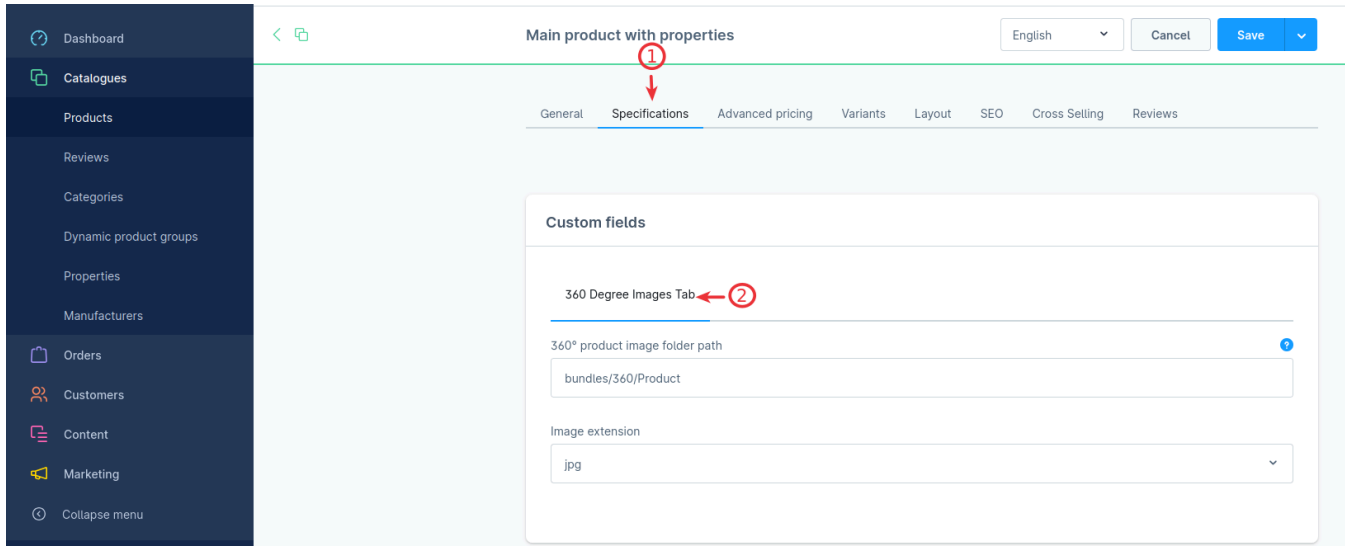

Under the 360° **product image folder path**, paste the file path where the images are present in the plugin. The images are uploaded in the public folder of the plugin. You must upload images of equal size, in JPEG or PNG or JPG file format, numbered in ascending order to arrange the images for the 360 degree view.

Follow the below steps to upload the images for the 360° view:

**Step 1:** Navigate to **shoproot/public/bundles**

**Step 2:** Create the folder for respective article as 360. Then click **Upload** to upload the images to this folder.

<p align="center"><strong><span style="color:blue">Figure 9</span></strong></p>
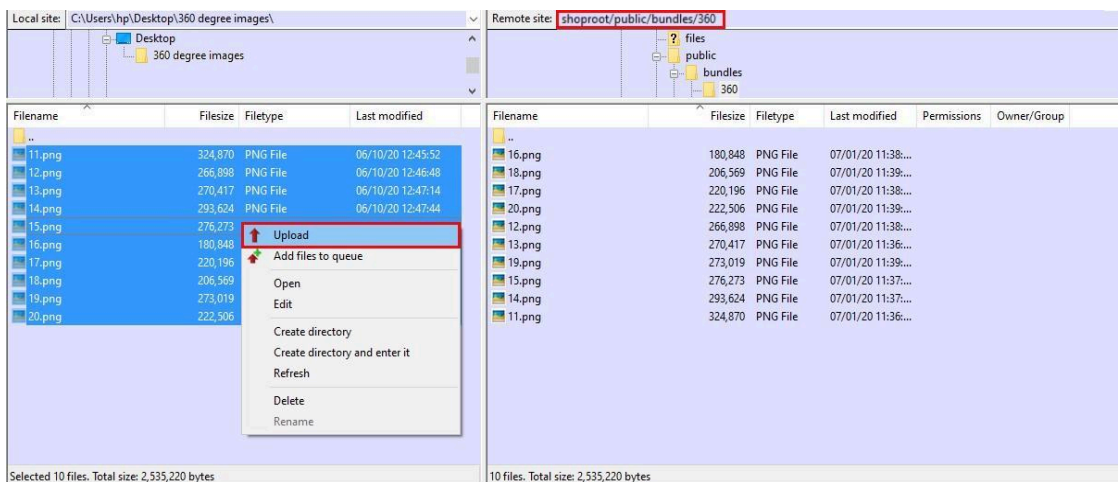

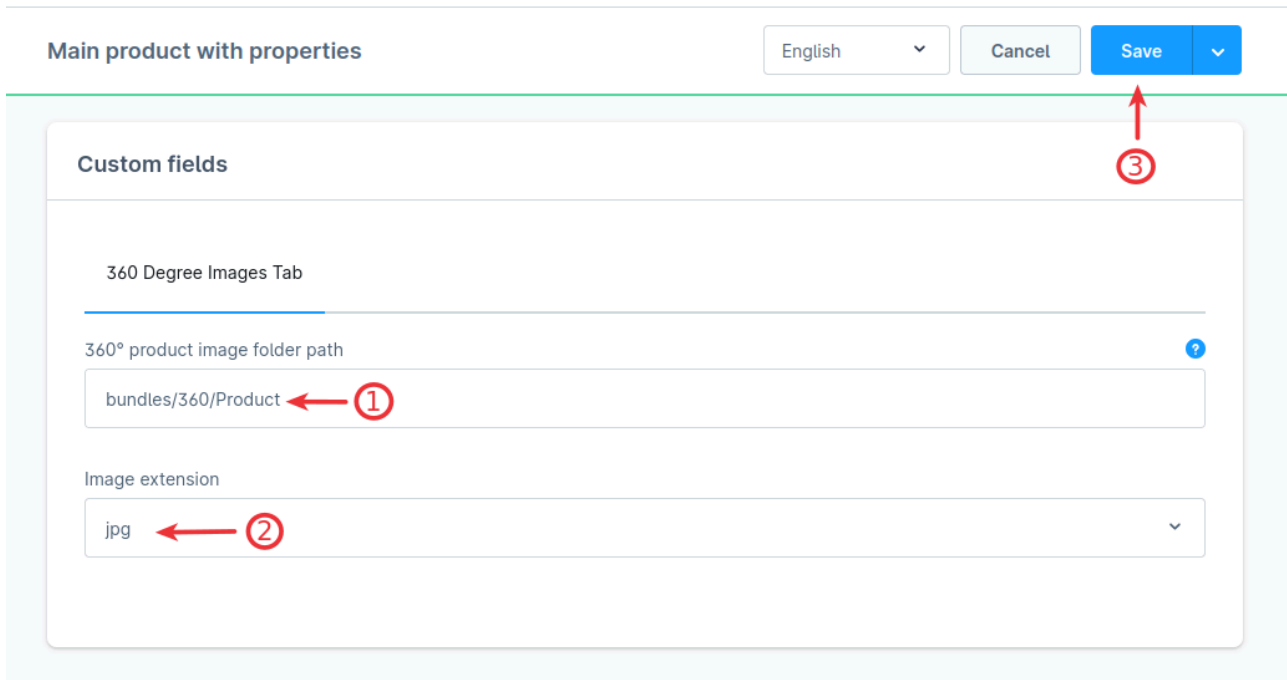

**Step 3:** Copy the **bundles/360** path to paste it under customer fields.

In the **360 Degree Images Tab** select image type from the drop down and click **Save** button to save/update the changes.

After uploading the images, the product detail page gives an option to have a detailed 360 degree of your products.

Click the [360°] option, to rotate the product image to view corresponding to the mouse move.
