2. MANAGING PLUGIN & CONTACT DETAILS.

This document relates to the BrandCrock plugin for **360 Degree Image Viewer** and contains important information about the installation and usage of the plugin. At the same time, this document serves as performance and functional specification for features available in the plugin.

If you face any issue or problems on installing or testing our plugin, please contact our <u>Support team</u>.

Please do not change or modify the plugin without having any experience or understanding.

2.1 About this Plugin

360 Degree Image Viewer plugin helps end-customers to view a rotatable 360-degree view of any product on the online store. Quick and easy setup gives the immersive panorama images for the product in your website. The product detail page gives an option to view the product image through each dimension. The product can be auto rotated to view the full 360 degree view of it. Additionally, a magnifying lens shows the magnified view of the chosen part.

3. PLUGIN INSTALLATION

The initial step is the Installation of the plugin. The following screenshots will explain you in detail about the installation process,

Step 1: Login to shop backend, navigate to Extensions > My extensions.

Figure 8

Under the 360° **product image folder path**, paste the file path where the images are present in the plugin. The images are uploaded in the public folder of the plugin. You must upload images of equal size, in JPEG or PNG or JPG file format, numbered in ascending order to arrange the images for the 360 degree view.

Follow the below steps to upload the images for the 360° view:

Step 1: Navigate to shoproot/public/bundles

Step 2: Create the folder for respective article as 360. Then click Upload to upload the images to this folder.

Local site:	C:\Users\hp\Desktop\360 degree i	imag	les/		 Remote site: shoproot, 	/public/bundles/360
