👉 If you face any issue or problems on installing or testing our plugin please contact our Support team.

👉 Please don't change or modify the plugin without having any experience or understanding.

### 2.1 About this Plugin

**Order Status Analytics** plugin adds detailed insights and visuals to the order page. Customers can easily see the current status of their overall orders, whether they are open, in progress, done, and cancelled. This transparency empowers customers by giving them a clear view of the progress of their purchases. Such features enhance the customer experience by fostering trust and satisfaction, critical elements in modern e-commerce interactions.

## 3. PLUGIN INSTALLATION

The initial step is the installation of the plugin. The following screenshots will explain you in detail about the installation process.

**Step 1:** Login to shop backend, navigate to **Extensions** → **My extensions**.
