2. MANAGING PLUGIN & CONTACT DETAILS

This document relates to the BrandCrock plugin for **Mega Menu** and contains important information about installation and usage of the plugin. At the same time, this document serves as performance and functional specification for features available in the plugin.

If you face any issue or problems on installing or testing our plugin please contact our <u>Support team</u>.

Please don't change or modify the plugin without having any experience or understanding.

2.1 About this Plugin

This plugin will help you to simplify the navigation and usability of your website. The plugin allows you to divide the area between columns according to fixed proportions for each of them and the interactive look is that when visitors hover the menu navigation the category and subcategory images change accordingly.

3. PLUGIN INSTALLATION

The initial step is the **Installation** of the plugin. The following screenshots will explain you in detail about the installation process, **Step 1:** Login to shop backend, navigate to **Extensions** \Box **My extensions**.
