## 2. MANAGING PLUGIN & CONTACT DETAILS

This document relates to BrandCrock plugin for **Product Availability For Zip Code** and contains important information about installation and usage of the plugin. At the same time, this document serves as performance and functional specification for features available in the plugin.

If you face any issue or problems on installing or testing our plugin please contact our Support team.

Telease don't change or modify the plugin without having any experience or understanding.

#### 2.1 About this Plugin

**BrandCrock Product Availability For Zipcode** app is built to help end-users view the delivery date for the chosen product when they enter a zip code. Once the app is installed in the shop backend, the number of days taken to deliver all the merchant's products can be set for one zip code or for a set of zip codes globally. Delivery days for each of the products chosen can also be set in each product configuration page. Using this app merchant can enable the option for the end-users to view his/her recently viewed products.

### **3. PLUGIN INSTALLATION**

The initial step is the Installation of the app. The following screenshots will explain you in detail about the installation process:

**Step 1:** Login to shop backend, navigate to **Extensions**  $\Box$  **My extensions**.
